

## **GENERAL INFORMATION**

Sobriety is normally used for residential trips for up to 12 passengers, but day trips can also be arranged. The skipper is able to pre discuss your itinerary to help you get the most out of the trip.

Groups are expected to arrange their own catering and will be supplied with a menu planning guide. The skipper and crew will need to be included in the catering arrangements.

There is a fully equipped kitchen and a cabin area, which is set out to enable groups to sit together below decks. A wheel chair lift is fitted to assist wheelchairs moving between the cabin and the deck area. There are two bunk bed dormitories, which sleep five people in each. A further two convertible berths can be found in the main seating area. There are separate crew/skipper quarters.
